## WOMEN WRITER'S DRESS.

## How Those Whose Books We Read are Clothed.

ABOUT THE SIMPLE DRAPERIES  
And Quiet Colors or Many Wielders  
of the Pen—Miss Edwards' Exquisite Toilets—Good Taste the Rule.

(Copyright, 1890—For the Times.)

German women have a reputation for thinking good clothes incompatible with virtue. Americans often hold them inconsistent with brains. We hear much of the learned ladies, shabbily dressed and untidily coiffed, who wear spectacles and home-made clothes, who pull up their petticoats in the streets and show their clumsy boots and worsted stockings. In good truth, I have seen few women for whose mental caliber I have much respect who touse their hair with much simpering of hot iron, who spend a life's ransom on tight-fitting bodies and abnormally small waists and big feather fans, and who flirt abominably in the conservatory under the shelter of the flabby leaves of a big begonia. But in spite of these acknowledged shortcomings of those whom somebody calls the "developed women," I confess to a certain weakness for the inconspicuous dress, simple draperies and quiet colors often characteristic of them.

I wouldn't have altered, for instance, the frocks of Miss Edwards, who lectured to us on Egyptology all winter in plain silks, exquisite of texture and unobtrusively relieved, by costing, evidently, in the putting on or taking off very little attention. Despite the pronouncement of those who hold that the chief function of the sex is to adorn itself, they appeared to me quite the ideal gowns for a busy woman.

Neither would I alter the toilets of Miss Frances Willard, who recognizes the policy of becoming dress and buys handsome costumes when she gets away, but who grows frequently so absorbed in her work that she forgets her bonnet has been raised on and her dress acquired wrinkles or two from much traveling. Women have dress preached at us in season and out of season. If we forget it, that means we are in earnest, and earnestness in almost any cause is refreshing.

I like the simple, dark, well-shaped frocks of Miss Grace H. Dodge, costing little more than the other showier gowns of the working girls with whom she spends so many pleasant evenings. When the pretty club parlors in Thirty-eighth street are full to overflowing, and "there's plenty of room, girls, on the floor and the tables," how could the smiling president take herself to the lowliest position if her skirts shuddered when they touched a carpet that might possibly be dusty?

The great majority of women writers differ very little from the outward appearance from the average intelligent, rather quiet woman who goes into quiet society. Mrs. Mary Mapes Dodge, the editor of *St. Nicholas*, for example, wears close-fitting, masculine gowns of solid colored silks with refined little bonnets. You would never spot her for a celebrity, but simply remark that she was pleasant and attractive looking. So with Mrs. Mary E. Sawyer, of the *Business Woman's Journal*, whose frank, alert countenance with its bright eyes and rosy cheeks catches the attention much sooner than her trim little bonnet with its sprays of white lilac.

Anything about her clothes; so with Mrs. Brauerlich of the *Engineering and Mining Journal*; so with Mrs. Grammie of the *Christian Union*, who will lean back in a chair and chat with you, and fifteen minutes later you will catch a glance of a brown turban in the middle distance, and when it turns about you will be surprised to find that it adorns the very woman with whom you have been speaking. I know not what others may think, but for me, give me the clothes that convey such an impression of "suitability" that when they are out of your sight you are unable to call to mind having seen their details.

Jenny June has worn black since Mr. Croly's death, and I don't know if anybody could find a costume in which he would rather see her than the soft, draping lace, falling closely about the figure, with a ribbon knotting it here and there.

Grace Greenwood commonly wears black also. Her figure is a little bowed, and she combs her dark hair down over her ears in the fashion of a generation ago. She is fond of lace, and often covers her shoulders with a handsome lace shawl or mantilla.

Mrs. M. Louise Thomas, who dropped her mantle as president of Sorosis upon the shoulders of Elihu Dietz (the sister of Secretary Bayard's wife), is stately and benevolent in black velvet. She has a strong, kind face, framed in smooth coils of hair.

Mrs. Clymer dresses with a certain individuality and grace. The last time I saw her she wore a combination of old rose and black with picturesque sleeves open from the elbows and filled with deep lace ruffles. Her hat—it was one of those conclusive things that you hesitate to define as hat or bonnet—was black lace with a wreath of old rose flowers.

is reason why she should deck herself with the soft, black lace, draping the bust and exposing the round arms, in which Mr. Champney painted the young writer.

Mrs. Frank Leslie, who combines business and social cares, gives much attention to her toilet, and in black silk at her office desk or ashes of roses and shaded grays at a reception, with bonnets and gloves of faultless match, is always richly attired. Robert Collier was speaking of having seen her one evening "loaded with ropes of pearls." For the taste of an old-fashioned person like myself, she, with most women who have money to buy them, wears too many jewels. I have given over expecting anybody to agree with me, but I do not care to see a hand covered with rings. It is prettier without ornaments or with not more than one. However, since Mrs. Leslie pluckily made her own money it is her business what she does with it, and a good deal goes warm-heartedly and intelligently into charities. At least she wears jewels only with evening dress when such magnificence is allowed.

Mrs. Lizzie W. Champney enters into the life of the literary world and through her husband that of the studios. She is a tall, rather handsome-faced woman, and I remember her most vividly in black relieved by one glowing, crimson flower. A picturesque woman—she's not literary—is the wife of Chase, especially when she wears her Japanese gown.

Mrs. Ballington Booth of the Salvation Army is a woman of whom it may be said as truly as of Mrs. Leslie that whom somebody calls the "developed women," I confess to a certain weakness for the inconspicuous dress, simple draperies and quiet colors often characteristic of them.

Kate Sanborn wears the handsomely and is, with her rather tall, finely developed figure and blonde coloring, an impressive personage. I have a mental picture of her entering Mrs. Croly's drawing-room with a witty sentence on her lips and in a trailing black silk with square-cut neck, lace garniture and here and there a touch of what one would judge to be her favorite color—yellow.

Laura Holloway Langford—her new name does not yet come easily—is a small person, slender, quick and alive in her movements. Sometimes she wears black, with a touch of blue, in her bonnet, or a plaided silk in which there are grayish tints mixed with blue.

Mrs. Lee C. Harby, the southern poet, who has recently made New York her home, is chestnut-haired, and wears warm browns, with Van Dyke lace and embroideries. When she is as pretty as Miss Bland, there

is reason why she should deck herself with the soft, black lace, draping the bust and exposing the round arms, in which Mr. Champney painted the young writer.

I know not what others may think, but for me, give me the clothes that convey such an impression of "suitability" that when they are out of your sight you are unable to call to mind having seen their details.

Take Swift's Specific in the Spring, When water-lilies blow, For health and happiness 'twill bring, And cause the blood to flow In joyous currents, pure and free Through every vein and artery.

GATHERED from field and forest are the component parts of Swift's Specific. There is nothing in it which comes from the chemist's shop, hence it is the great remedy to help nature to ward off disease.

In the Spring Months—

Is the best time to brace up the health. Take S. S. S. when you feel dull and heavy—take it when your blood is too thick and slow, and your feelings will tell you when. Every man, woman and child would be the better for having taken a few bottles of S. S. S. in the spring. Send for Treatise on the Blood, mailed free. (Copyrighted by S. S. S. Co.)
